

KIRTI JADHAV

Third-Year BCA student with knowledge of Data Analytics, Web Development, and Software Development. Eager to apply technical and problem-solving skills through internship opportunities and real-world projects.

☎ 9004099446 ✉ kirti.j0401@gmail.com 🐙 GitHub 🔗 LinkedIn 📍 Chembur, India

PROFESSIONAL SUMMARY

Third-Year BCA student with knowledge of Data Analytics, Web Development, and Software Development. Passionate about building data-driven solutions and seeking internship opportunities to apply technical and problem-solving skills.

WORK EXPERIENCES

Self-Driven Projects

- Developed hands-on experience in data analytics, machine learning, and web development through independent projects.
- Built practical solutions using modern technologies and industry-relevant tools.

Technologies / Skills Used : Python, SQL, Machine Learning

EDUCATIONS

Somaiya Vidhyavihar University | Mumbai

Jul 2024 - Present

Bachelor of Computer Application

CGPA : 10.00

- CGPA (IV Sem): 10.00

PROJECTS

Loan Default Prediction System | 🐙 Github 🖥 Live Demo

Apr 2026 - May 2026

Machine Learning Engineer

- Developed a Machine Learning application utilizing Python and XGBoost
- Executed preprocessing, feature engineering, and model evaluation
- Achieved 90%+ accuracy in loan default prediction, deployed using Streamlit

Technologies / Tools Used : Python, XGBoost, Streamlit

Telecom Customer Churn Analysis | 🐙 Github

Apr 2026 - Apr 2026

Data Analyst

- Analyzed over 7,000 customer records utilizing Python and SQL.
- Identified key factors influencing customer churn.
- Developed a Power BI dashboard for enhanced data visualization.

Technologies / Tools Used : Python, SQL, Power BI

Smart Expense Tracker & Budget Monitoring System | 🐙 Github

Jan 2026 - Feb 2026

Developer

- Developed a web-based expense tracker utilizing C#, ASP.NET, and SQL Server.
- Implemented features for expense tracking and budget monitoring, enhancing user financial insights.
- Designed intuitive interfaces for improved financial management.

Technologies / Tools Used : C#, ASP.NET, SQL Server

Real vs Fake Job Analysis | 🐙 Github

Data Analyst

- Analyzed job posting datasets using Python and SQL to identify trends.
- Detected patterns in fraudulent job listings, enhancing data integrity.
- Developed dashboards to compare fake and real job postings, improving visibility.

Technologies / Tools Used : Python, SQL, Power BI

SKILLS

Databases :	SQL Server, MySQL
Frameworks & Libraries :	ASP.NET, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Streamlit
Programming Languages :	Python, SQL, C, C++, Java, C#, Dart, JavaScript, R
Soft Skills :	Communication, Teamwork, Leadership, Critical Thinking, Problem Solving
Tools & Platforms :	Power BI, Excel, Git, GitHub, Jupyter Notebook

AWARDS & ACHIEVEMENTS

- Awarded for securing top rank in FYBCA (First Year BCA)

CERTIFICATIONS

SQL For Data Science

Jun 2025

UC DAVIS
